Month

Year

# Instructions

Use this worksheet to plan your budget for the month and year listed above. Write in your details on the blank lines with the estimated amount of each category. The pre-filled items exist as examples and common items that might be useful.

## Accounts

Enter the account value as of the last day of the previous month. We will define this as our “savings” that existed before the budget month began.

Account	Amount (\$)
Total of Accounts	

# Funds

Assign every dollar above to a fund purpose. The total of funds should equal the total of accounts.  
Think of these like “cookie jars” with money saved for this specific purpose.

Fund	Amount (\$)
Cash Flow Fund	
Emergency Fund	
House Fund	
Auto Fund	
Travel Fund	
Clothing Fund	
Taxes Fund	
Total of All Funds (should equal account total)	

# Income

List all expected income sources for this month and their estimated income.

Income Source	Amount (\$)

[illegible]

# Summary

In a “zero-based” budget there should not be anything “left over” as every dollar is assigned for a purpose. We suggest having one “goal item” or “flex item” per month that flexes with the variability in the month. This goal item should be a Fund or a Debt.

Budget Group	Planned (\$)
Total Income	
Total Giving	
Total Spending	
Total Saved	
Extra Debt Payments	
Net	0.00
